

CRISIS-READY INTERVENTIONIST® CERTIFICATION

BUILD A WORKFORCE THAT CAN RESPOND WHEN IT MATTERS MOST

Most organizations have policies. Few have people prepared to act in the moment.

A Crisis-Ready Interventionist (CRI) is a trained employee who can recognize early signs of distress, respond with confidence, and support colleagues before situations escalate into crisis.

This is how organizations move from awareness to action.

- Create **internal capacity** to respond in real time
- **Reduce risk** of psychological and physical harm
- **Strengthen** culture, trust, and peer support
- Enable “**humans helping humans**” at scale
- Stabilize environments through **trained upstanders**, not bystanders

ALIGNED TO CSA Z1003. DESIGNED FOR REAL-WORLD APPLICATION.

Workplace expectations are evolving rapidly. Crisis-Ready Workplace delivers a practical solution

Employers are now expected to:

- Identify risks early
- Respond appropriately in the moment
- Demonstrate proactive duty of care

We bridge the gap between:

- Policies and real-time action
- Frameworks and frontline capability
- Compliance and culture
